

Zenora Dental

A booking website and front-desk dashboard built for dental clinics. Your brand, your patients, your dashboard.

Live in 7 days

The patients you are already losing

Roughly **one in three calls** to a dental clinic goes unanswered during busy hours — and **80% of those calls** are someone trying to book. They do not call back. They call the next clinic on Google. Zenora catches them: they book a slot themselves, or leave a callback request that is waiting at the top of your dashboard in the morning.

Calls unanswered during busy hours

80%

Of missed calls are someone booking

67%

Still prefer phone — so we capture callbacks

7 days

From kickoff to live and booking

What you get

Patient website

- Home, About, Services, Blog, Contact
- Mobile-first and fast-loading
- SEO: schema, Open Graph, canonical tags
- Online booking — 6 services, date & time
- Priority callback capture
- Patients check their own status

Admin dashboard

- Command Center — drag-and-drop patient flow
- Filter, search and sort appointments
- Patient and doctor records
- Calendar view
- Invoice generator (PDF, ₹)
- CSV export to Excel

Automated emails

- Booking confirmed, with tracking ID
- Status updated
- Doctor assigned
- Details changed — before → after
- **Visit completed + Google review request**
- All branded to your clinic

Pricing

STARTER

₹24,999

one-time setup

then **₹1,499 / month**

PROFESSIONAL · MOST POPULAR

₹44,999

one-time setup

then **₹2,499 / month**

CLINIC PLUS

₹79,999

one-time setup

then **₹4,499 / month**

If this brought you one extra patient a month, would it be worth ₹83 a day?

Setup costs about one implant case. The monthly is less than a single cleaning. Pay annually and get two months free. Founding-client rate available for the first five clinics.

Start with a 30-day pilot — if it hasn't brought you a patient, don't pay the setup fee.
